CCAR Recognizes G&R Body and Paint as “GreenLink Shop”

**CCAR announces that G&R Body and Paint of
Sacramento, Calif., has achieved recognition as a
“GreenLink Shop.”**

OVERLAND PARK, KAN. – The Coordinating Committee For Automotive Repair (CCAR®) announces that G&R Body and Paint of Sacramento, Calif., has been recognized as a “GreenLink Shop.”

The **GreenLink Shop** status, an extension of CCAR’s **CCAR-GreenLink®** Environmental Compliance Assistance Center and **S/P2** (Safety and Pollution Prevention) E-learning Program, is designed to promote consumer confidence in local automotive repair facilities’ environmental/safety awareness and stewardship.

“Becoming a **GreenLink Shop** is exciting to us, and I am happy that we have achieved this status,” said Dave Picton, owner of G&R Body and Paint. “It is important to me that we do the ‘right thing’ not only for the environment, but also for our employees

and our community. As all of us go home to our families at night, it's important that we feel good about both the quality of our work and our role as good citizens; it's not just about bringing in the paycheck. That's why I make safety and environmental awareness a priority in my shop.”

“We are excited to welcome G&R Body & Paint to the **GreenLink Shop** program,” said Rod Enlow, CCAR Vice President of Industry Relations. “Today's retail customer is knowledgeable and enlightened with regard to environmental responsibility and safety awareness, and G&R's desire to attain this level of recognition should give their customers and insurance partners great satisfaction and confidence in this facility.”

Repair facilities seeking the **GreenLink Shop** recognition must maintain high standards of excellence in environmental, health and safety (EHS) practices in four categories: business operations, employee training, safety compliance and environmental management. The CCAR initiative recognizes both auto mechanical service facilities and collision repair shops, with separate criteria established for each type of business.
