

Your OSHA Alliance partner for the  
Automotive Industry

# ATI's Client Offering

## Automotive Safety: Why it is important for your Business?

Shop Safety training is mandated by Federal and State regulatory agencies. In addition, employees are the most valuable asset in a shop and deserve every affordable protection. Our extensive list of available Safety Training Modules is designed to cover the most common situations your auto technicians may encounter.

## How much does it cost?

CCAR is offering the AutoEHS Safety Course Suite (12-month multi-seat access) for **\$299.00** per location. For this one annual fee, of **less than \$1 per day**, you can train **ALL** of your employees at your location.

## Available Auto Shop Safety Courses:

- GHS-Hazcom 2012-Hazard Communication Standard (GHS-2012)
- Safety Programs (A-SAF-001)
- Accident Investigations (A-SAF-002)
- Battery Management (A-SAF-004)
